Career Objective

As a Junior MERN Stack Developer, I am dedicated to expanding my expertise in MongoDB, Express.js, React.js, and Node.js to contribute effectively to full-stack development projects. With a solid foundation in React, I am enthusiastic about learning and applying MERN technologies in a professional setting. Seeking an entry-level position that provides opportunities for hands-on experience, mentorship, and collaborative projects, allowing me to grow as a MERN developer while making meaningful contributions to innovative websites.

Skills and Technologies

- **Technical skills:**
 - **Expertise:** React, Tailwind CSS, JavaScript, HTML, CSS, Firebase Authentication, React-router
 - **Comfortable:** node.js, express.js, mongodb, react hook form
 - **Familiar:** material ui, tanstack query, mongoose
 - **Tools:** github, netlify, vercel
- **Interpersonal Skills:** Hard working, active listening, responsibility, flexibility, adaptability

Projects

1. Talent Pulse

type: employee management system

[Source code](#) | [Live link](#)

period: almost 10 days

- Designed and developed a responsive front-end for an Employee Management System using React and Material UI, tailoring interfaces to distinct user roles (Admin, HR, Employee) for optimized user interactions.
- Implemented dynamic dashboards, role-specific navigation, and utilized Material UI components to ensure an intuitive and role-specific user experience.

Technologies: react, react-router, material ui, firebase authentication, axios

2. Stay Finder

type: hotel booking web application

[Source code](#) | [Live link](#)

period: 5days

- Developed a responsive React front-end for the Hotel Booking Web App, implementing user authentication with Firebase and JWT for secure access, and utilizing cookies for enhanced session management.
- Integrated real-time toast notifications in React for seamless user interactions during CRUD operations, contributing to an improved user experience on the Hotel Booking platform.

Technologies: react, react-router, tailwind css, daisy ui, firebase authentication, axios, aos

Education

Bachelor of Social Science (B.S.S. Honours)

National University, Bangladesh, Economics

October 2017 - October 2021

Language

- Bangla - Native
- English - Comfortable
